Education

**Ho Chi Minh City University of
Technology and Education (HCMUTE)**
2019-2023

Skills

Front End Development

React, Redux, MUI, Bootstrap, SASS

Back End Development

NodeJS, Express, MongoDB

Other knowledge

Basic English, GIT, Webpack, Heroku,
Netlify, Cloud Service

Projects

● LapDarker E-commerce

A SPA project to clone the [Thinkpro.vn](https://thinkpro.vn)'s website follows the MERN stack model. Using Redux-saga and axios to communicate between front-end and back-end. The interface section builds on the MUIv6. The server uses Express Framework, MongoDB database with supporting libraries such as jsonwebtoken, bcrypt,...

Link website: [Lapdarker](#) / [Github](#)

● Clothes Shop

A MPA project to build a fashion business website. The interface is rendered on the server side with Handlebars and CSS Preprocessor SCSS. The server uses ExpressJS, MongoDB, Passport.JS for authentication.
