## Education

**Ho Chi Minh City University of  
Technology and Education (HCMUTE)**  
2019-2023

## Skills

### Front End Development

React, Redux, MUI, Bootstrap, SASS

### Back End Development

NodeJS, Express, MongoDB

### Other knowledge

Basic English, GIT, Webpack,  
Cloud Service

## Projects

### ● LapDarker E-commerce

A SPA project to clone the [Thinkpro.vn](https://thinkpro.vn)'s website follows the MERN stack model. Using Redux-saga and axios to communicate between front-end and back-end. The interface section builds on the MUIv6. The server uses Express Framework, MongoDB database with supporting libraries such as jsonwebtoken, bcrypt,...

GIT: <https://github.com/dphonguyenn/lapdarker-clone-thinkpro>

### ● Clothes Shop

A MPA project to build a fashion business website. The interface is rendered on the server side with Handlebars and CSS Preprocessor SCSS. The server uses ExpressJS, MongoDB, Passport.JS for authentication.

GIT: <https://github.com/dphonguyenn/IT-project.CloShop>

### ● Other projects

- Transcribe App: JS, HTML, CSS, AWS Cloud service  
GIT: <https://github.com/dphonguyenn/AWS-Transcribe-App>
- Quizz App: NodeJS, Handlebars, MongoDB  
GIT: <https://github.com/dphonguyenn/quizz-app>
- To do App: Redux Toolkit  
GIT: <https://github.com/dphonguyenn/to-do-app>
